CARE FOR A TATTOO REMOVAL

Your tattoo removal was applied with sterile equipment and procedures, and with non-toxic colors. We guarantee our workmanship. Healing and caring of your tattoo removal is YOUR responsibility."

Remove the dressing after four hours. Wash your tattoo with warm soapy water with clean hands and pat dry with a clean towel. Then apply xtrack or 8trak extraction ointment. Repeat this process every 6 hours for 7 days and then finally clean skin and don't apply anything, just carry on as normal.

Unlike a normal tattoo it is fine to get the tattoo removal wet.

Once the shine is no longer visible on the surface of the skin then then the skin is ready for the next session.

Do's and Don'ts

DO NOT PICK OR SCRATCH THE TATTOO

Do not apply suntan lotion to your tattoo removal in the first 10 days.

Keep the tattoo removal area free from dust, paint, cement, oil, grease, etc.

If you notice any redness or unusual swelling around the area please phone us or seek medical advice.

Please feel free to contact us at any time should you have any questions
